PERSON PROFILE

React Js Web Developer adept in all stages of advanced web development. Experienced with the latest cutting-edge development tools and procedures. Proficient in an assortment of technologies, including React JS, JavaScript, Typescript, and UI libraries like Tailwind CSS, Material UI, and Bootstrap. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

EMPLOYMENT HISTORY

Frontend Web Developer (Intern) at Right-Hand Cybersecurity, Singapore (Remote)
October 2022 — Present

- Worked as a passionate and dedicated Intern in the Front-end Tech Department.
- Assessing project requirements using Agile & Scrum principles to help solve the localization of the Right-Hand portal.
- Worked to complete the localization of the website using the react-intl library in React.js
- Documenting localization solution for progressively searching of completed web application pages and files on Confluence Documents and to mitigate the duplicity of localization of code.

Software Engineer Intern at Horizon Digital Pakistan, Australia (Remote)
August 2022 — September 2022

- Utilized crucial design software skills to assist with projects.
- Collaborated with the in-house senior software engineers with the UI redesign of a project using React JS, HTML, and Tailwind CSS. Updated the site appearance and made it responsive for mobile devices.
- Worked on an internal software of the company related to the management of employee accounts and salaries using React.js, Django and Material UI.
